

OLE SEVILLA! CLIP-ON

The colourful lenses reflect the waves of arches while the bold prints on our frames are in perfect tune with the relaxed ambience of Sevilla.

Solano CLIP-ON is a collection offering new opportunities for all the bespectacled. We managed to combine the functionality of optical frames with the utility of sunray-blocking clip-ons while retaining their professional eye protection properties, comfort, and safety. If you enjoy playing around with fashion and you love to customise your look, additional clip-ons are available in various colours, prints, and shapes.

Many possibilities – one choice. Solano CLIP-ON
