

SOLANO
high-end performance

FAUNA

Nature provides inspiration with its immense beauty and diversity of forms. Fascination with the world of insects encouraged Solano designers to devise a collection where the BEE, the SCARAB BEETLE, the BUTTERFLY, and the DRAGONFLY form a distinctive and ornamental decoration of the spectacle frames.

Accessories that please the eye and attract attention. Real works of art, but not exclusive to special events!

Distinctive features:

- designer collection, the insect ornaments are hand-made
- the product comes in an individually decorated spectacle case
- high quality, jewellery-like workmanship of the insect designs
- The designs offer a wealth of symbolism so that each person can find the design that fits them best
- Inspired by nature – observant of the world around us

Solano high-end performance.
